

RechargeKit Credit Card API Integration Guide

Version: V 3.0.0

Base URL: <https://v2bapi.rechargkit.biz>

Authentication:

Authorization: Bearer {api_token}

Contents

1. API Overview
2. Operator List API
3. Credit Card Payment API
4. Request Parameters
5. Curl Examples
6. Response Examples

1. API Overview

This document describes the RechargeKit Credit Card Payment API used by partners for credit card payment processing.

Authentication

Authorization: Bearer {api_token}

API access requires an active partner account and CC permission.

Status Codes

Status	Meaning
1	Success
2	Pending
3	Failed

2. Operator List API

Use this API to fetch available credit card operators.

Use the returned **operator_code** in the payment API.

API Details

Field	Value
Method	GET
URL	https://v2bapi.rechargkit.biz/recharge/servicewiseOperatorFetch?operator_category=11
Header	Authorization: Bearer {api_token}

Sample Response

```
{
  "error": 0,
  "msg": "operator list fetched",
  "status": 1,
  "operatorList": [
    {
      "operator_id": 215,
      "operator_name": "SBI Card",
      "service_name": "RKIT CC",
      "operator_category": 11,
    }
  ]
}
```

```

    "operator_category_name": "credit_card"
  }
]
}

```

3. Credit Card Payment API

API Details

Field	Value
Method	GET / POST
URL	https://v2bapi.rechargkit.biz/rkitcc/v3/ccPayment
Authorization	Bearer {api_token}
Content-Type	application/json

4. Request Parameters

}'

```

}

6. Response Examples

Success Response

```
{
  "error": 0,
  "msg": "order success",
  "status": 1,
  "orderid": "f0c7285b-2b85-44b8-82e6-xxxxxxxxxx",
  "optransid": "513417487644",
  "partnerreqid": "202605200001",
  "user_var1": "",
  "user_var2": "",
  "user_var3": ""
}
```

Pending Response

```
{
  "error": 0,
  "msg": "order pending",
  "status": 2,
  "orderid": "f0c7285b-2b85-44b8-82e6-xxxxxxxxxx",
  "optransid": "",
  "partnerreqid": "202605200001",
  "user_var1": "",
  "user_var2": "",
  "user_var3": ""
}
```

Failed Response

```
{
  "error": 0,
  "msg": "order failed",
  "status": 3,
  "orderid": "f0c7285b-2b85-44b8-82e6-xxxxxxxxxx",
  "optransid": "",
  "partnerreqid": "202605200001",
  "user_var1": "",
  "user_var2": "",
  "user_var3": ""
}
```
